Re: FOIA Request – Agent Recruitment guidelines and risk analysis reports

Dear Mr. Koch:

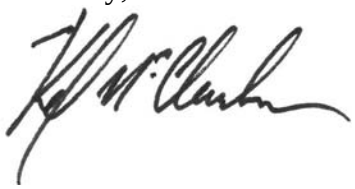
This is a request under the Freedom of Information Act, 5 U.S.C. § 552, et seq., for copies of any internal Central Intelligence Agency ("CIA") documents and reports pertaining to guidelines for National Clandestine Service officers for the evaluation of the likelihood of success of recruiting agents from within terrorist organizations, including but not limited to any risk or probability analysis reports based on quantified variables used to determine the probability of successful recruitment efforts.

This request falls under the educational and scientific fee category, as this material will be used in the development of a risk analysis report for an academic journal. I have attached the first four pages of the current report as an exemplar, as well as an illustration of the type of information I am seeking. I desire to compare the methodology developed by my colleague and me with a comparable product from the U.S. Intelligence Community ("USIC") before submitting the final analytical report for publication with the hope that it will aid in the prosecution of the USIC's ongoing Counter-Terrorism mission.

If you deny all or part of this request, please cite the specific exemptions you believe justify your refusal to release the information or permit the review and notify me of your appeal procedures available under the law. In excising material, please "black out" rather than "white out" or "cut out."

Please respond to this request within 20 working days as provided for by law. Failure to comply in a timely manner may result in the filing of a civil action against your agency in the United States District Court for the District of Columbia. Your cooperation in this matter would be appreciated. If you wish to discuss this request, please do not hesitate to contact me by e-mail at [redacted]gmail.com or on my cell at [redacted].

Sincerely,



Kel McClanahan
